Language: English/Spanish (Translation will be provided)

## **Faculty**

Nadeem Abu Rustum (*Memorial Sloan Kettering Cancer Center, New York*)

Richard Barakat (*Memorial Sloan Kettering Cancer Center, New York*)

Denis Chi (*Memorial Sloan Kettering Cancer Center, New York*)

Rob Coleman (*The University of Texas MD Anderson Cancer Center, Houston*)

Michael Frumovitz (*The University of Texas MD Anderson Cancer Center, Houston*)

David Gershenson (*The University of Texas MD Anderson Cancer Center, Houston*)

Anais Malpica (*The University of Texas MD Anderson Cancer Center, Houston*)

Kathleen Schmeler (*The University of Texas MD Anderson Cancer Center, Houston*)

Anil Sood (*The University of Texas MD Anderson Cancer Center, Houston*)

## **Topics and Sessions:**

- **Molecular biology of gynecological cancer:**  
The primary basis for translational research
- **How to integrate targeted therapy in our clinical practice:**  
Present facts and future challenges
  - Antiangiogenesis
  - PARP inhibition
  - Intracellular signaling
  - Genomics of ovarian cancer
- **Controversies on advanced ovarian cancer**
  - Neoadjuvant chemotherapy
  - Surgery of recurrent disease
  - Surgery of the upper abdomen
- **Ovarian cancer: clinical update on key topics**
  - New molecular classification for ovarian cancer
  - Investigation and management of rare ovarian tumors
  - How to select first line therapy
  - Optimal management of recurrent disease
  - New clinical trials
- **Minimally invasive surgery**
  - Robotic versus laparoscopic
  - Treatment of early stage cervical cancer
  - Lymphatic mapping in gynecologic oncology
- **Controversial topics in advanced endometrial cancer**
  - The role of surgery in advanced disease
  - Adjuvant therapy: how to integrate radiotherapy and chemotherapy
- **Tumor board with challenging cases**
- **Video surgical symposium**
