SILESIAN LABORATORY OF GYNAECOLOGY

IV SILESIAN WORKSHOPS IN GYNAECOLOGICAL ONCOLOGY Advanced techniques in ovarian cancer surgery

Description

- The exclusive course in advance operative techniques for management of ovarian cancer. The online part is limited for 150 participants.
- Attendance to face-to-face course is limited to 20 participants enabling 4 attendees to be assigned per cadaver
- The online part is mandatory for attendees of the face-to-face course.

Aims

- The course aims to improve advance skills in operative files necessary for performing ultraradical cytoreductive surgery in ovarian cancer patients.
- The course will improve also the knowledge on possible complication management including vascular, bowel and urinary tract injuries across European gynecological oncologist.

Target Audience

- Gynecological oncologist and trainees/residents in gynecological oncology from all countries. Fluence in English is mandatory.

Level

Intermediate and advanced

Learning Objectives

- Improve knowledge and skills in the management of advanced ovarian cancer surgery and its complications
- Acquire update on prehabilitation, different types of debulking surgeries, the effects of radical surgeries on survival rate, complication management and VBHC principals
- Understand how to triage patients for PDS (including ultraradical debulking) and PDS and how to manage possible perioperative complications
- Obtain knowledge from a live surgery and practice skills in hands-on training on fresh human cadavers to enhance your experience in surgical field
- Practice on fresh human cadavers to put your surgical techniques and procedures on higher level

CHIARS OF THE COURSE :

Professor Krzysztof Nowosielski,
Professor Rafał Stojko,
Professor Grzegorz Bajor,

INVITED GUESTS

Professor Christina Fotopoulou
Professor Alejandra Martinez
Professor Ewa Milnerowicz-Nabzdyk
Professor Dennis Chi
Professor Mustafa Zelal Muallem
Professor Denis Querleu
Professor Ignacio Zapardiel
Professor Paweł Knapp
Professor Łukasz Wicherek

Doctor Giedre Rudinskaite
Doctor Agnieszka Rychlik
Doctor Aleksandra Stojna
Doctor Ewa Kapuśniak
Doctor Andrei Pletnev
Doctor Oliver Zivanovic (TBC.)
Doctor Victor Lago
Doctor Marcin Misiek
Doctor Wojciech Szanecki
Doctor Marcin Zebalski

REGISTRATION FEE:

30.10.2024 - 50 EURO

8.11.2024 - 75 EURO

8-9.11.2024 - 500 EURO

PRE-COURSE ONLINE SESSIONS October 30th, 2024

Chairs of the Course: K. Nowosielski, A. Rychlik, G. Rudinskaite, A. Strojna
Leading person: Krzysztof Nowosielski

Day 1 Theoretical Lectures			
	<i>Session 1 Prepare for the operation</i>	<i>Chair: Nowosielski, Querleu, Rychlik, Rudinskaite, Fotopoulou</i>	
08:50	Introduction to the Course	Krzysztof Nowosielski	0:10
09:00	ESGO guidelines in ovarian cancer management	Christina Fotopoulou	0:30
09:30	Imaging in ovarian cancer patients	Wojciech Szaneci	0:30
10:00	Selecting patents for PDS	Krzysztof Nowosielski	0:30
10:30	Prehabilitation	Marcin Zebalski	0:30
11:00	ESGO Quality indicators in advanced ovarian cancer surgery	Denis Querleu	0:30
11:30	How to prepare patients for ultraradical surgery including bowel preparation	Giedre Rudinskaite	0:30
12:00	Equipment and recourses required for optimal surgical performance	Agnieszka Rychlik	0:30
12:30	Q&A		0:10
12:40	Coffee break		0:20
	<i>Session 2 MIS in ovarian cancer</i>	<i>Chair: Knap, Misiek, Lago, Zapardiel</i>	
13:00	Laparoscopy for evaluation of operability	Pawel Knapp	0:15
13:15	Laparoscopy in ovarian cancer management	Marcin Misiek	0:15
13:30	Sentinel node biopsy in ovarian cancer	Victor Lago	0:15
13:45	Laparoscopic lymphadenectomy in ovarian cancer	Ignacio Zapardiel	0:15
14:00	Q&A		0:10
14:10	Lunch break		0:20
	<i>Session 3 Tips and tricks</i>	<i>Chair: Nowosielski, Fotopoulou, Martinez</i>	
14:30	Anatomy of pelvis and abdomen	Alejandra Martinez	0:30
15:00	Liver mobilization and diaphragm peritonectomy	Dennis Chi	0:30
15:30	Splenectomy and cholecystectomy	Giedre Rudinskaite	0:30
16:00	Bowel resection and pelvic peritonectomy	Christina Fotopoulou	0:30
16:30	Resection in urinary tract and Hudson procedure	Lukasz Wicherek	0:30
17:00	Celiac trunk, hepatic hilum and diaphragm cruris lesion removal	Andrei Pletnev	0:30
17:30	Extraabdominal nodes harvesting	Pawel Knapp	0:30
18:00	Total retroperitoneal en bloc resection of multivisceral-peritoneal packet	Mustafa Zelal Muallem	0:30
18:30	Q&A		0:10
18:40	Coffee break		0:05
	<i>Session 4. Complications management and reconstructions</i>	<i>Chair: Rychlik, Zivanovic, Milnerowicz</i>	
18:45	Vascular injury	Agnieszka Rychlik	0:30
19:15	Bowel reconstructions and ICG	Oliver Zivanovic (TBC)	0:30
19:45	Urinary tract reconstructions	Ewa Milnerowicz-Nabzdyk	0:30
20:15	Q&A		0:10
20:25	Closing and remarks		0:10
