

Advanced Course on the Multidisciplinary Team Management of Cervical Cancer PRELIMINARY SCIENTIFIC PROGRAMME

Day 1, May 11, 2025 **Track 1: General considerations** 12.00-13.00 Registration and welcome coffee Philippe Morice 13:00 Welcome – Purpose of the advanced course Remi Nout Domenica Lorusso Chair Phillipe Morice 13:15-14:10 Session 1 - Cervical cancer: prevention, diagnosis and staging 13:15-13:30 Lecture 1: Epidemiology, primary and seconday prevention Lecture 2: Pathology of HPV and non HPV related cancer including molecular 13:30-13:45 prognostic and predictive factors 13:45-14:00 Lecture 3: Cervical cancer staging 14:00-14:10 Discussion - Interaction 14.10-14.30 Coffee break 14.30-15.25 Session 2 - Controversial topic: treatment of stage IB3 cervical cancer Chair Remi Nout Lecture 4: The role of surgety including surgical lynphnodes stageing (connection 14:30-14:45 with live surgery) 14:45-15:00 Lecture 5: The role of radiotherapy 15:00:15:15 Lecture 6: The role of neoadjuvant chemotherapy 15:15-15:25 Discussion - Interaction Session 3 – Controversial topic: management of locally advanced cervical 15:25-16:20 Chair Remi Nout cancer Lecture 7: The role of chemoradiation 15:25-15:40 15:40-15:50 Lecture 8: The role of induction chemotherapy 15:50-16:10 Lecture 9: The role of immunotherapy 16:10-16:20 Discussion - Interaction 16:20-16:40 Coffee break 16:40-18:05 Session 4 – Surgical controversies Chair Philipe Morivce Lecture 10: Conservative tratment in cervical cancer: when and how? 16:40-16:55 (live surgery) Lecture 11: Is there a role for laparoscopy in cervical cancer? 16:55-17:15 (live surgery) Lecture 12: Simple or Radical hysterectomy: when and to whom? 17:15-17:30 (live surgery) 17:30-17:45 Lecture 13: Is there a role for paraortic surgical staging in cervical cancer? Discussion - Interaction (incl. short case presentation) 17:45-18:05 Wrap up day 1 18:05 Welcome dinner 20.00-22.00

Day 2, May 12, 2025
Track 2: Technical a spects and quality

	Session 5 - Quality indicators of tretament and quality of life in cervical cancer	
8:30-10:10	management	Chair Remi Nout
8:30-8:45	Lecture 14: ESGO ESTRO Technical aspects and quality indicators of EBRT	
8:45-9:00	Lecture 15: ESGO ESTRO Technical aspects and quality indicators of	
	brachytherapy	
9:00-9:15	Lecture 16: Management of side effects (radiotherapy and surgery)	
9:15-9:30	Lecture 17: Management of side effects (radiotherapy)	
9:30-9:45	Lecture 18: Management of side effects (medical treatment)	
9:45-10:00	Lecture 19: Long term effects of treatment in cervical cancer patients and impact on quality of life	
10:00-10:10	Discussion – Interaction	
10:10-10:30	Coffee break	
10:30-11:35	Session 6 - The standard: CT/RT + image guided adaptive brachytherapy	Chair Remi Nout
10:30-10:45	Lecture 20: Indications, Techniques, and Imaging in Image-Guided Brachytherapy	
10:45-11:00	Lecture 21: ESGO ESTRO Quality indicators in Cervical Cancer Management (joint QI in radiotherapy and surgery)	
11:00-11:15	Lecture 22: The brachytherapy workflow and clinical decision making	
11:15-11:35	Discussion – Interaction (incl. short case presentation)	
11:35-13:45	Session 7 - Treatment of advanced and metastatic disese	Chair Domenica Lorusso
11:35-12:00	Lecture 23: Medical treatment	
12:00-12:20	Lecture 24: A vision to the future	
12:20-12:35	Lecture 25: Role of radiotherapy	
12:35-12:50	Lecture 26: Tretament of residual disease	
12:50-13:05	Lecture 27: Management of stage IVA cervical cancer	
13:05-13:25	Lecture 28: Treatment of oligometasttic disease/ oligometastatic progression	
13:25-13:45	Discussion and Interaction (incl. short case presentation)	
13:45-14:40	Lunch break	
14:40-15:30	Session 8 – Hot topics in cervical cancer management	ТВС
14:40-14:55	Lecture 29: Robotic surgery: indications and contraindications	
14:55-15:10	Lecture 30: Risk factors fior adjuvant therapy in eraly stage cervical cancer	
15:10-15:30	Discussion – Interaction (incl. short case presentation)	
15:30-16:50	Session 9 - Recurrent disease in pelvic cavity	ТВС
15:30-15:45	Lecture 31: Proton therapy	
15:45-16:00	Lecture 32: Place, indications and modalities of pelvic exenterations and laterally	
	extended surgery (+/- IORT/BT)	
16:00-16:15	Lecture 33: Is there a place for re-irradiation	
16:15-16:30	Lecture 34: ESGO/ESTRO/ESP Guidelines	
16:30-16:50	Discussion – Interaction (incl. short case presentation)	
16:50	Wrap up
