OUTLINE OF ESGO 2019 PRELIMINARY SCIENTIFIC PROGRAMME

State of the Art Sessions
- Early stage high risk endometrial cancer
- Results of ESGO-ESMO ovarian cancer consensus
- Prevention and screening
- SIOP-EESO Guidelines on gynaecological cancers in adolescents
- GCIG-ESGO Guidelines on rare gynaecological cancers
- Quality indicators in cervical cancer surgery
- Looking to the future of cervical cancer therapy
- Immunotherapy
- Indications for lymphadenectomy in ovarian, cervical and endometrial cancers

Debates
- HIPEC in ovarian cancer: does it become a standard now or need to be evaluated?
- Radical hysterectomy, laparoscopy or open surgery?
- Use of imaging in the preoperative workup of endometrial cancer

Parallel Sessions
- Surgical staging of advanced cervical cancer
- Advanced stage endometrial cancer
- Risk reducing strategies in gynaecologic cancers
- Mucinous ovarian carcinoma: multidisciplinary approaches
- Stratifying patients for radical cytoreduction in advanced ovarian cancer
- Diagnostic approaches to suspicious ovarian mass
- Emerging pathways and targeted treatments in gynaecologic cancer
- Platinum resistant: definition, treatment options and future perspectives
- How to implement quality assurance in surgical procedures
- Advances in breast cancer treatment
- Accessibility and financial burden of novel therapies for gynaecancer
- Genetic counseling in gynaecancer: how, when and by whom
- How to manage patients with positive PA nodes?
- How to tailor surveillance strategy in gynaecological tumour boards?
- Environmental aspects, specifically nutritional, lifestyle factors in gynaecological cancer
- Uterine sarcoma
- Genital tract microbiome and gynaecological cancers
- Perioperative care
- The past and the future of lymphedema in gynaecologic oncology
- Genital reconstructive techniques and sexual functions
- Advanced stage of vulvar cancer
- Overview of assessments of pros and quality of life
- FIGO classification: flaws and advances

Tumour Boards
- Ovarian cancer tumour board
- Fertility sparing management tumour board
- INCAP session: Cancer in pregnancy tumour board
- ESP session: Molecular tumour board

Video Sessions
- Robotic, laparoscopic or open surgery?
- Debulking procedures

Workshops
- Management of complications in surgery treatments: a multidisciplinary approach
- Upper abdominal debulking procedures
- Bowel surgery for gynaecologists
- Colposcopy workshop

Titles of sessions are subject of final confirmation

DO guidelines and recommendations impact management of uterine cancer patients?
- Oncogeriatry in gynaecologic cancer
- Management of bleeding
- Micrometastases
- Out of the box procedures
- Gestational trophoblastic disease
- Psycho oncology and sexual health
- ESTRO session: Advances in radiotherapy
- ESO session: Ovarian cancer observatory
- ENGOT session: Future trials - what shall be the next?

About ESGO
ESGO Vision
Optimal prevention and care for all women in Europe with gynaecological cancers.

ESGO Mission
To improve the health and well-being of European women with gynaecological (genital and breast) cancers through prevention, excellence in care, high quality research and education.

Scientific Programme Committee
Nicole Concin, Austria (ESGO 2019 Scientific Committee Chair)
Alexandros Rodolakis, Greece (ESGO 2019 Congress President)
Denis Querleu, France (ESGO President)
David Cibula, Czech Republic (ESGO Past President)
Cristiana Sessa, Switzerland (ESGO Vice-President)
Philipp Morice, France (ESGO President-Elect)
Anna Fogli, Italy
Annmaria Ferrero, Italy
Christina Fotopoulou, UK
Dimitrios Haidopoulos, Greece
Pawel Knapp, Poland
Dina Kurdiani, Georgia
Jonathan Ledermann, UK
Sandro Pignata, Italy (ENGOT Chair)
Jordi Ponce, Spain
Mansoor Raza Mirza, Denmark
Cagatay Taskiran, Turkey
Elzbieta Van Der Steen Banaiik, The Netherlands
Kamil Zalewski, Poland (ENYGO Chair)
