

Scientific Committee

Nicoletta Colombo

Director, Program Gynecologic Oncology, IEO, Milan

Angelo Maggioni

Director, Division of Gynaecology, IEO, Milan

Giovanni Aletti

Innovative Therapeutic Strategies in Ovarian Cancer Unit, IEO, Milan

Vanna Zanagnolo

Director, Mini-invasive and Robotic Gynecologic Cancer Surgery Unit, IEO, Milan

Fedro Peccatori

Director, Procreation and Fertility Unit, IEO, Milan

Faculty

Nicoletta Cerana

ACTO Onlus, Milan (Italy)

Pernilla Dahm-Kähler

Department of Obstetrics and Gynecology, Institute of Clinical Sciences, Göteborg (Sweden)

Andreas Du Bois

Department of Gynecology & Gynecologic Oncology, KEM | Kliniken Essen-Mitte, Essen (Germany)

Antonio González Martín

Department of Medical Oncology, Clinica Universidad de Navarra (Spain)

Jonathan A. Ledermann

Cancer Research UK and UCL Cancer Trials Centre, London (UK)

Sandro Pignata

Division of Medical Oncology, IRCCS National Cancer Institute "Fondazione G. Pascale", Naples (Italy)

Carmine Pinto

Medical Oncology Unit, Santa Maria Nuova Hospital, Reggio Emilia (Italy)

Maria Giovanna Salerno

xxxxxxxxxxxxxxxxxxxxxxxx

Enrico Sartori

Obstetric and Gynecologic Unit, ASST Spedali Civili of Brescia (Italy)

Giovanni Scambia

Gynecologic Oncology Unit, Gemelli University Hospital, Rome (Italy)

Paolo Scollo

Obstetric and Gynecologic Unit, Cannizzaro Hospital, Catania (Italy)

14 December 2018

IEO OVARIAN CANCER CENTER-OCC
10 YEARS OF ACTIVITY
Delving into known and unknown aspects
of advanced ovarian cancer

Endorsements

Introduction

Ovarian cancer (OC) remains the leading cause of death for gynecologic malignancies in developed countries. Across different studies, the absolute benefit from care at high-volume centers exceeds the benefit from break-through treatments. Numerous studies suggest that the management of OC pts by gynaecologic oncologists in cancer centers results in improved clinical and economic outcomes.

Based on these premises, in 2008 we opened the Ovarian Cancer Center at the European Institute of Oncology (IEO-OCC) mirroring a similar initiative founded by Robert Bristow at the Johns Hopkins University in Baltimore. The mission of IEO-OCC was to provide a unique example in Italy of clinical care for patients with ovarian cancer. The main principles were a strong collaboration between experts to assure a multidisciplinary approach for research, prevention and treatment of ovarian cancer. The principal objectives were to improve early diagnosis, survival and quality of life of patients with ovarian cancer and simultaneously to increase the opportunities for additional clinical research projects. We also wanted to enhance awareness of ovarian cancer regarding the importance of prevention and the benefits of centralized expert care for advanced cases.

The multidisciplinary approach represents the distinctive element of the IEO-OCC to guarantee the continuity of care in the complex therapeutics journey of ovarian cancer patients.

To commemorate the 10 year anniversary of IEO-OCC we decided to hold a meeting on December 14, 2018, not only to review the main improvements achieved by the scientific community during the past 10 years, but particularly to identify new perspectives and challenges for the future.

The program will include key-note lectures from national and international experts in the field, followed by round tables with invited participants which will allow large time for discussion.

The afternoon will be dedicated to the important issue of centralization of care, with invited international speakers who will tell us about the successful experiences in their countries on this crucial aspect. A "photography" of Italian ovarian cancer patients and where they received their treatment will be instrumental to the following discussion which will see the participation of political authorities, national societies presidents and advocacy group representatives.

The final objective will be to formulate concrete propositions to improve the access to quality care for the majority of patients with ovarian cancer.

Scientific Programme

9.45 **Introduction** - N. Colombo

10 **Newly diagnosed advanced ovarian cancer: facts, no hype**

Moderator: Giovanni Aletti

Keynote Lecture:

How many times shall we "shift our mind" in advanced ovarian cancer surgery?

Andreas du Bois

Panel and Floor Discussion:

The following topics will be discussed:

- Surgical resectability
- Lymphadenectomy
- ERAS implementation
- HIPEC
- Interval debulking surgery: when

11 **The journey of upfront therapy in ovarian cancer**

Moderator: Nicoletta Colombo

Keynote Lecture:

Finding the mark to integrate targeted therapies in front line

Sandro Pignata

Panel and Floor Discussion

The following topics will be discussed:

- Can we differentiate treatment based on molecular profiling?: BRCA and beyond
- Is Bevacizumab mandatory?
- Patient selection: residual tumor, comorbidity etc
- Too many new clinical trials: how to choose?
- How to include biomarker research?

12 **A new language for ovarian cancer: will platinum sensitivity remain a relevant prognostic factors?**

Moderator: Antonio Gonzales-Martin

Keynote lecture:

Contemporary challenges in the treatment of relapsing ovarian cancer:

A pill and nothing more, how fare are we?

J. Ledermann

Panel and Floor Discussion

The following topics will be discussed:

- The concept of platinum sensitivity: still valid?
- Platinum or non platinum: how to decide?
- Maintenance treatment: which, when and how long
- Chemo-free treatment: a valid option?
- Coming soon new treatment in ovarian cancer

13 **Lunch**

Moderators: A Maggioni, V. Zanagnolo

14 **Keynote Lecture**

Centralization of care in USA - TBC

Centralization of care in Sweden - Pernilla Dahm Kähler

Where do we treat OC in Italy? - TBC (Mario Negri Institute)

Role of advocacy groups - Nicoletta Cerana (ACTO)

Panel and Floor discussion:

SIGO (President and Past President): G.Scambia, P. Scollo

SIOG (President and Past President): E. Sartori, G. Salerno

AIOM (Past President): C. Pinto

ACTO: N. Cerana

Rappresentanze politiche: TBC

16.30 **IEO-OCC after 10 years** - Giovanni Aletti

17 **Toast**

Online Registration

IEO OVARIAN CANCER CENTER-OCC 10 YEARS OF ACTIVITY

Delving into known and unknown aspects
of advanced ovarian cancer

14 December 2018

The course is free of charge and it is limited to 100 participants.

CERTIFICATE OF ATTENDANCE AND CME CREDITS

The course will apply to Agenas for providing Italian CME credits for Gynecologists.

The Certificate of attendance will be delivered at the end of the course at the registration desk.
